Building API's with Node.js

By Rajat Gupta · Posted on: 25.02.2024

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, "Lorem ipsum dolor sit amet..", comes from a line in section 1.10.32.

The standard chunk of Lorem Ipsum used since the 1500s is reproduced below for those interested. Sections 1.10.32 and 1.10.33 from "de Finibus Bonorum et Malorum" by Cicero are also reproduced in their exact original form, accompanied by English versions from the 1914 translation by H. Rackham.

About Website

Welcome to Rajat Gupta's Personal Blog, a captivating online space crafted with Node.js, Express.js, and EJS, complemented by a robust MongoDB database. This dynamic platform serves as a digital haven where Rajat Gupta shares his thoughts, experiences, and insights on a myriad of topics close to the heart. With the seamless synergy of Node.js and Express.js, the website ensures swift and responsive navigation, providing an immersive user experience. The elegant front-end, powered by EJS, enhances visual appeal while maintaining simplicity, making it a pleasure to explore the content. Behind the scenes, MongoDB serves as the reliable database, storing and retrieving data effortlessly. This personalized blog is not just a website; it's a reflection of Rajat's journey and a welcoming space for readers to connect, engage, and be inspired.

About Developer

Rajat Gupta

This Website is developed by Rajat Gupta. A BCA student in SIU, Pune. To know more about the developer you can see his [portfolio website](#).
